The important fact that the awful consequences of
self-abuse may be effectually removed without internal
medicines or the dangerous applications of caustics, instruments, medicated bougies, and other empirical devices, is here clearly demonstrated, and the entirely
new and highly successful treatment as adopted by the
celebrated author fully explained, by means of which
every one is enabled to cure himself perfectly, and at
the least possible cost, thereby avoiding all the advertised nostrums of the day. This Lecture will prove a
boon to thousands and thousands.
